

DERINELL ROJAS

derinellojas@gmail.com | www.linkedin.com/in/derinellojas | Boston, MA

EDUCATION

Boston University

Bachelor of Arts, Computer Science

Boston, MA

Expected Dec 2025

- Coursework: Linear Algebra, Data Structures, Analysis of Algorithms, Computer Systems, Intro to Databases, Intro to Artificial Intelligence, Theory of Computation, Full Stack Development

EXPERIENCE

Kyruus Health

Software Engineer Intern

Boston, MA

Jun 2024 - Sep 2024

- Delivered a functional feature by enhancing the HUB's cross-environment translation service for tenant data in English, Spanish, and Haitian Creole, enabling movement of translation values between dev2, prd2, and uat2 environments
- The feature allowed Business Systems Analysts and the Kyruus customer support team to control translations more efficiently, facilitating incremental updates, reducing data divergence, and improving adaptability across customer-specific environments
- Integrated into a team of 8, including senior engineers, a product manager, a quality assurance specialist, and an engineering manager, by participating in weekly standups, estimations, demos, retrospectives, and contributing to bug fixes across multiple variant repositories and features
- Collaborated closely with senior engineers through peer coding sessions, enhancing code quality, and gaining insights into best practices
- Supervised full product cycle, including gathering requirements, designing UI, creating unit tests, and delivering final product

Hack.Diversity

Software Engineer Fellow

Boston, MA

Jan 2024 - Sep 2024

- Developed a MERN stack web application with a team of 6, enabling physicians to perform CRUD operations on structured radiology reports for COVID-19 patient x-ray assessments
- Authored a featured Medium post, presenting a 250+ word narrative detailing a personal journey into technology
- Selected as one of 89 out of 450+ candidates. Collaborated with peers in data science, mechanical, and software engineering domains; while engaging in weekly mentorship, mock interviews, and upskilling

HubSpot

HubSpot AI Student Intern

Remote

Sep 2023 - Nov 2023

- Applied AI-driven data extraction in ChatSpot (HubSpot's AI chat) to generate 150+ leads for aiming to expand prospecting clients and partners
- Composed a Google sheet for 150+ leads, capturing company details, location, employee size, and industry type, while emphasizing key qualification factors for targeted outreach
- Crafted a B2B email series (Outreach, Follow-Up, Trial/Demo, Onboarding), each ranging from 200-300 words

Justice Media Computational Journalism Co-Lab

Boston University's Spark! Tech Division

Boston, MA

Jan 2023 - May 2023

- Collaborated on a multi-faceted research project, including a sprint focus on exoneration data analysis to identify police-warrant falsification
- Managed creation of a nationwide database of 3,285 appellate decisions, utilizing computational techniques for decision prioritization based on keywords and sentiment analysis
- Supplied data for The Grio's published article on the 3rd anniversary of Breonna Taylor's case

PROJECTS

Bookify | Python, CSS, JavaScript

Sep 2023 - Dec 2023

- Initiated development of a web application to provide users a unique and personalized Spotify playlist of 10 songs perfectly tailored to mood and themes of any book

- Integrated 2 external web API (ChatGPT and Spotify)
- Implemented OAuth allowing users to login with existing Spotify account to save playlist
- Categorized MySQL database into 5 fields (User's Spotify ID, Book Title, Author's Name, and User's Feedback Responses from Questionnaire)

SKILLS

Technical: Python, Java, CSS, HTML, JavaScript, React, Redux, MySQL, MERN Stack, Visual Studio Code, Git, Github, Miro, Microsoft Suite (i.e., Excel), Google Workspace

Certifications: HubSpot Marketing Software Certification, HubSpot SEO Training

LEADERSHIP

Rhythm n Beats Boston University's Official Step Team, Treasurer Aug 2024 - Jan 2025

- Managed Excel sheet administrative paperwork for costume requests, performances, and team-building activities. Raised ~\$500 in one quarter.

Boston University's Department of Computer Science, Course Grader Sep 2024 - Sep 2024

- Support instructors in grading homework assignments, projects, and exams, ensuring prompt and fair evaluation of all coursework

Public Interest Technology University Network, Convention Facilitator Oct 2023 - Oct 2023

- Managed arrival process for 300+ attendees at the 2023 PIT-UN Convening. Checked-in and delivered event information for provosts, private sectors, and PIT-UN community participants

Mentor/Event Staff, Boston University's College of Engineering, Mentor Mar 2023 - Mar 2023

- Provided technical assistance to students, encompassing support in brainstorming sessions and troubleshooting coding challenges throughout duration of Hackathon

HONORS AND AWARDS

- Awarded "Best Project from a Group of Entry-Levels" at Rewriting The Code's 2024 Hackathon, Black Wings Hack
- Recipient of Academic Scholarship to Boston University
- Recipient of Clinton G Mills/Bank of America Scholarship
- 2020 AP Scholars Award

AFFILIATIONS

- HubSpot x LinkedIn Ambassador, Rewriting The Code, CodePath, BU's Technology Inspiration Scholars Program, MassMutual: Data Days for Good
