

DERINELL ROJAS

Boston, MA | derinellrojas@gmail.com | [Website](#)

EDUCATION

Boston University

Bachelor of Arts, Computer Science

- **Coursework:** Data Structures, Analysis of Algorithms, Computer Systems, Linear Algebra, Introduction to Databases, Full Stack Application Development, Theory of Computation, Introduction to Artificial Intelligence

Dec 2025

Boston, MA

EXPERIENCE

Kyruus Health

Software Engineer Intern

- Delivered a functional feature by enhancing the HUB's cross-environment translation service for tenant data in English, Spanish, and Haitian Creole, enabling movement of translation values between dev2, prd2, and uat2 environments
- The feature allowed Business Systems Analysts and the Kyruus customer support team to control translations more efficiently, facilitating incremental updates, reducing data divergence, and improving adaptability across customer-specific environments
- Integrated into a team of 8, including senior engineers, a product manager, a quality assurance specialist, and an engineering manager, by participating in weekly standups, estimations, demos, retrospectives, and contributing to bug fixes across multiple variant repositories and features
- Collaborated closely with senior engineers through peer coding sessions, enhancing code quality, and gaining insights into best practices
- Supervised full product cycle, including gathering requirements, designing UI, creating unit tests, and delivering final product

Jun 2024 - Sep 2024

Boston, MA

Hack.Diversity

Software Engineer Fellow

- Developed a MERN stack web application with a team of 6, enabling physicians to perform CRUD operations on structured radiology reports for COVID-19 patient x-ray assessments
- Authored a featured Medium post, presenting a 250+ word narrative detailing a personal journey into technology
- Selected as one of 89 out of 450+ candidates. Collaborated with peers in data science, mechanical, and software engineering domains; while engaging in weekly mentorship, mock interviews, and upskilling

Jan 2024 - Sep 2024

Boston, MA

HubSpot

HubSpotAI Student Intern

- Applied AI-driven data extraction in ChatSpot (HubSpot's AI chat) to generate 150+ leads for aiming to expand prospecting clients and partners
- Composed a Google sheet for 150+ leads, capturing company details, location, employee size, and industry type, while emphasizing key qualification factors for targeted outreach
- Crafted a B2B email series (Outreach, Follow-Up, Trial/Demo, Onboarding), each ranging from 200-300 words

Sep 2023 - Nov 2023

Remote

Justice Media Computational Journalism Co-Lab

Boston University's Spark! Tech Division

- Collaborated on a data research project focused on exoneration rates and conducting a sprint to identify patterns of warrant falsification using LexisNexis, Excel, and MySQL.
- Managed nationwide database of 3,285 appellate decisions, utilizing sentiment analysis for case review prioritization

Jan 2023 - May 2023

Boston, MA

SKILLS

- **Technical Skills:** Python, Java, JavaScript, C, TypeScript, HTML, CSS, Django, Flask, React, Redux, Next.js, Vite, Node.js, Tailwind CSS, Styled-Components, MongoDB Atlas, MySQL, Firebase, RESTful APIs, JWT Authentication, Vercel, Railway, Git, GitHub, Microsoft Suite, Google Workspace, Front-end Development, Agile Methodology
- **Certifications:** Cisco Computer Hardware Basic, HubSpot Marketing Software Certification, HubSpot SEO Training

LEADERSHIP

Rhythm and Beats Boston University's Official Step Team

Treasurer

- Managed Excel sheet administrative paperwork for costume requests, performances, and team-building activities. Raised ~500 in first quarter.

Aug 2024 - Jan 2025

Boston University's Department of Computer Science

Course Grader

- Support instructors in grading homework assignments, projects, and exams, ensuring prompt and fair evaluation of all coursework

Sep 2024

Public Interest Technology University Network

Convention Facilitator

- Managed arrival process for 300+ attendees at the 2023 PIT-UN Convening. Checked-in and delivered event information for provosts, private sectors, and PIT-UN community participants

Oct 2023

Boston University's College of Engineering

Mentor/Event Staff

- Provided technical assistance to students, encompassing support in brainstorming sessions and troubleshooting coding challenges throughout duration of Hackathon

Mar 2023
